Biologics 510 S. 17th Street,

Suite 104 Ames, IA 50010 (515) 232-5785 FAX (515) 232-7120

I. PURPOSE

The purpose of this notice is to provide information regarding the availability of a new Bovine Viral Diarrhea (BVD) Challenge Virus, provided by the Center for Veterinary Biologics (CVB).

II. BACKGROUND

The new Challenge Virus contains BVD Type 1, CA0401186A Strain, to be used in immunogenicity studies, as per Title 9, Code of Federal Regulations Part 113.311(c)(4). The efficacy of this strain as a challenge virus was demonstrated in a vaccination-challenge study [Ridpath, J.F., Neill, J.D., Peterhans, E. 2007. Impact of variation in acute virulence of BVDV1 strains on design of better vaccine efficacy challenge models. Vaccine 25 (47) 8058-66].

III. ACTION

Procedures for obtaining the new challenge seed culture are described in Veterinary Services Memorandum No. 800.97, Section VI. Specific information regarding production methods are provided by the CVB in all reagent shipments.
